*\*Chalkology Paste Singles are subject to change.*

### Instructions

1. Knead the Chalkology Paste Singles. Cut the paste singles open and squeeze the desired amount of paste onto a Color Tray.
2. Line up the tags in two vertical columns of 3.
3. Remove the Transfer Backer Sheet. "Fuzz" the Transfer on a Fuzzing Cloth before aligning it over top of the tags. Try to cover as much of the tags' surface area as possible. Smooth the Transfer out to ensure that it has properly adhered and there are no bubbles or wrinkles.
4. With a paintbrush, use loose, non-uniform strokes of each color over the Transfer to create a marbled look on the tags. Use a squeegee to blend the colors and remove excess paste from the Transfer. When the design has been completely painted, carefully remove the Transfer from the tags.
5. Allow time for the tags to dry. You may use a Quick Dry Tool to expedite the drying process.
6. Immediately clean the Transfer with cool water (*do not let it soak*). Dry the Transfer flat with the sticky side up. Once dry, reapply the Transfer Backer Sheet and store flat.
7. Once the paste has dried, attach the provided string to each of the tags.
8. Add one of these tags as a magnificent finishing touch to any gift!
